Competency Exam Information for Registered Nurses

This is to inform that “The Maldives Nursing and midwifery Council (MNMC)” has announced competency exam for diploma level and above nurses who are newly applying for registration.

From 19th March 2018 Onwards:

- ◆ It will be mandatory for all newly applying nurses (both Expatriate & Maldivian) to pass the exam in order to obtain registration and license.
- ◆ Registration and Practicing License will be provided upon passing the exam only.
- ◆ All nurses newly applying for registration (both Expatriate & Maldivian) will be provided with a provisional registration and license of 6 months or until competency exam is cleared.
- ◆ **Pass marks for the exam is 60% of the total percentage.**
- ◆ Nurse, who are not able clear the exam within six (6) months will be denied of any form of registration and will be eligible only after one year.
- ◆ Nurses who are not able clear the exam within six months are **no longer eligible** for provisional registration.
- ◆ Maldivians nurses who upgrade from an Advanced Certificate level to Diploma level and above must clear the exam. However, Maldivian nurses with a MNMC registration (Category A and B) who upgrade from Diploma level and to Degree or above do not have to do the competency exam.
- ◆ A person whose name appears on the Council’s register, but has not been in the clinical/service as a nurse/midwife for a period of 2 (two) years or more, must clear exam when applying to renew the license.
- ◆ The examination will test competencies in relation to the key areas of responsibility stated in the competency standards of nursing practice in the Maldives.
- ◆ Competency exam is conducted by the MNMC in collaboration with The Maldives National University (MNU). Information, application form for this exam will available in Ministry of health website and exam schedules will be checked from the MNU
